

NOTICE TO MARSHALL COUNTY RESIDENTS
Regarding the 2018 Election Year

Marshall County will be updating their election machines to be used for the 2018 election year. The most recently used M100 Precinct Counting machines are being updated to DS200 Precinct Counting machines. Along with this change in equipment, comes new software. The new software, Electionware, will replace the old software, Unity.

Public demonstrations of these election machines will be given starting in July, with a notice informing the public when and where these demonstrations will be held.

You can contact the Auditor's Office at 218-745-4851 if you have any questions. This notice meets the requirements for posting as outlined in MN Statute 206.58.

Thank you,
Scott Peters, Marshall County Auditor-Treasurer
